# About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

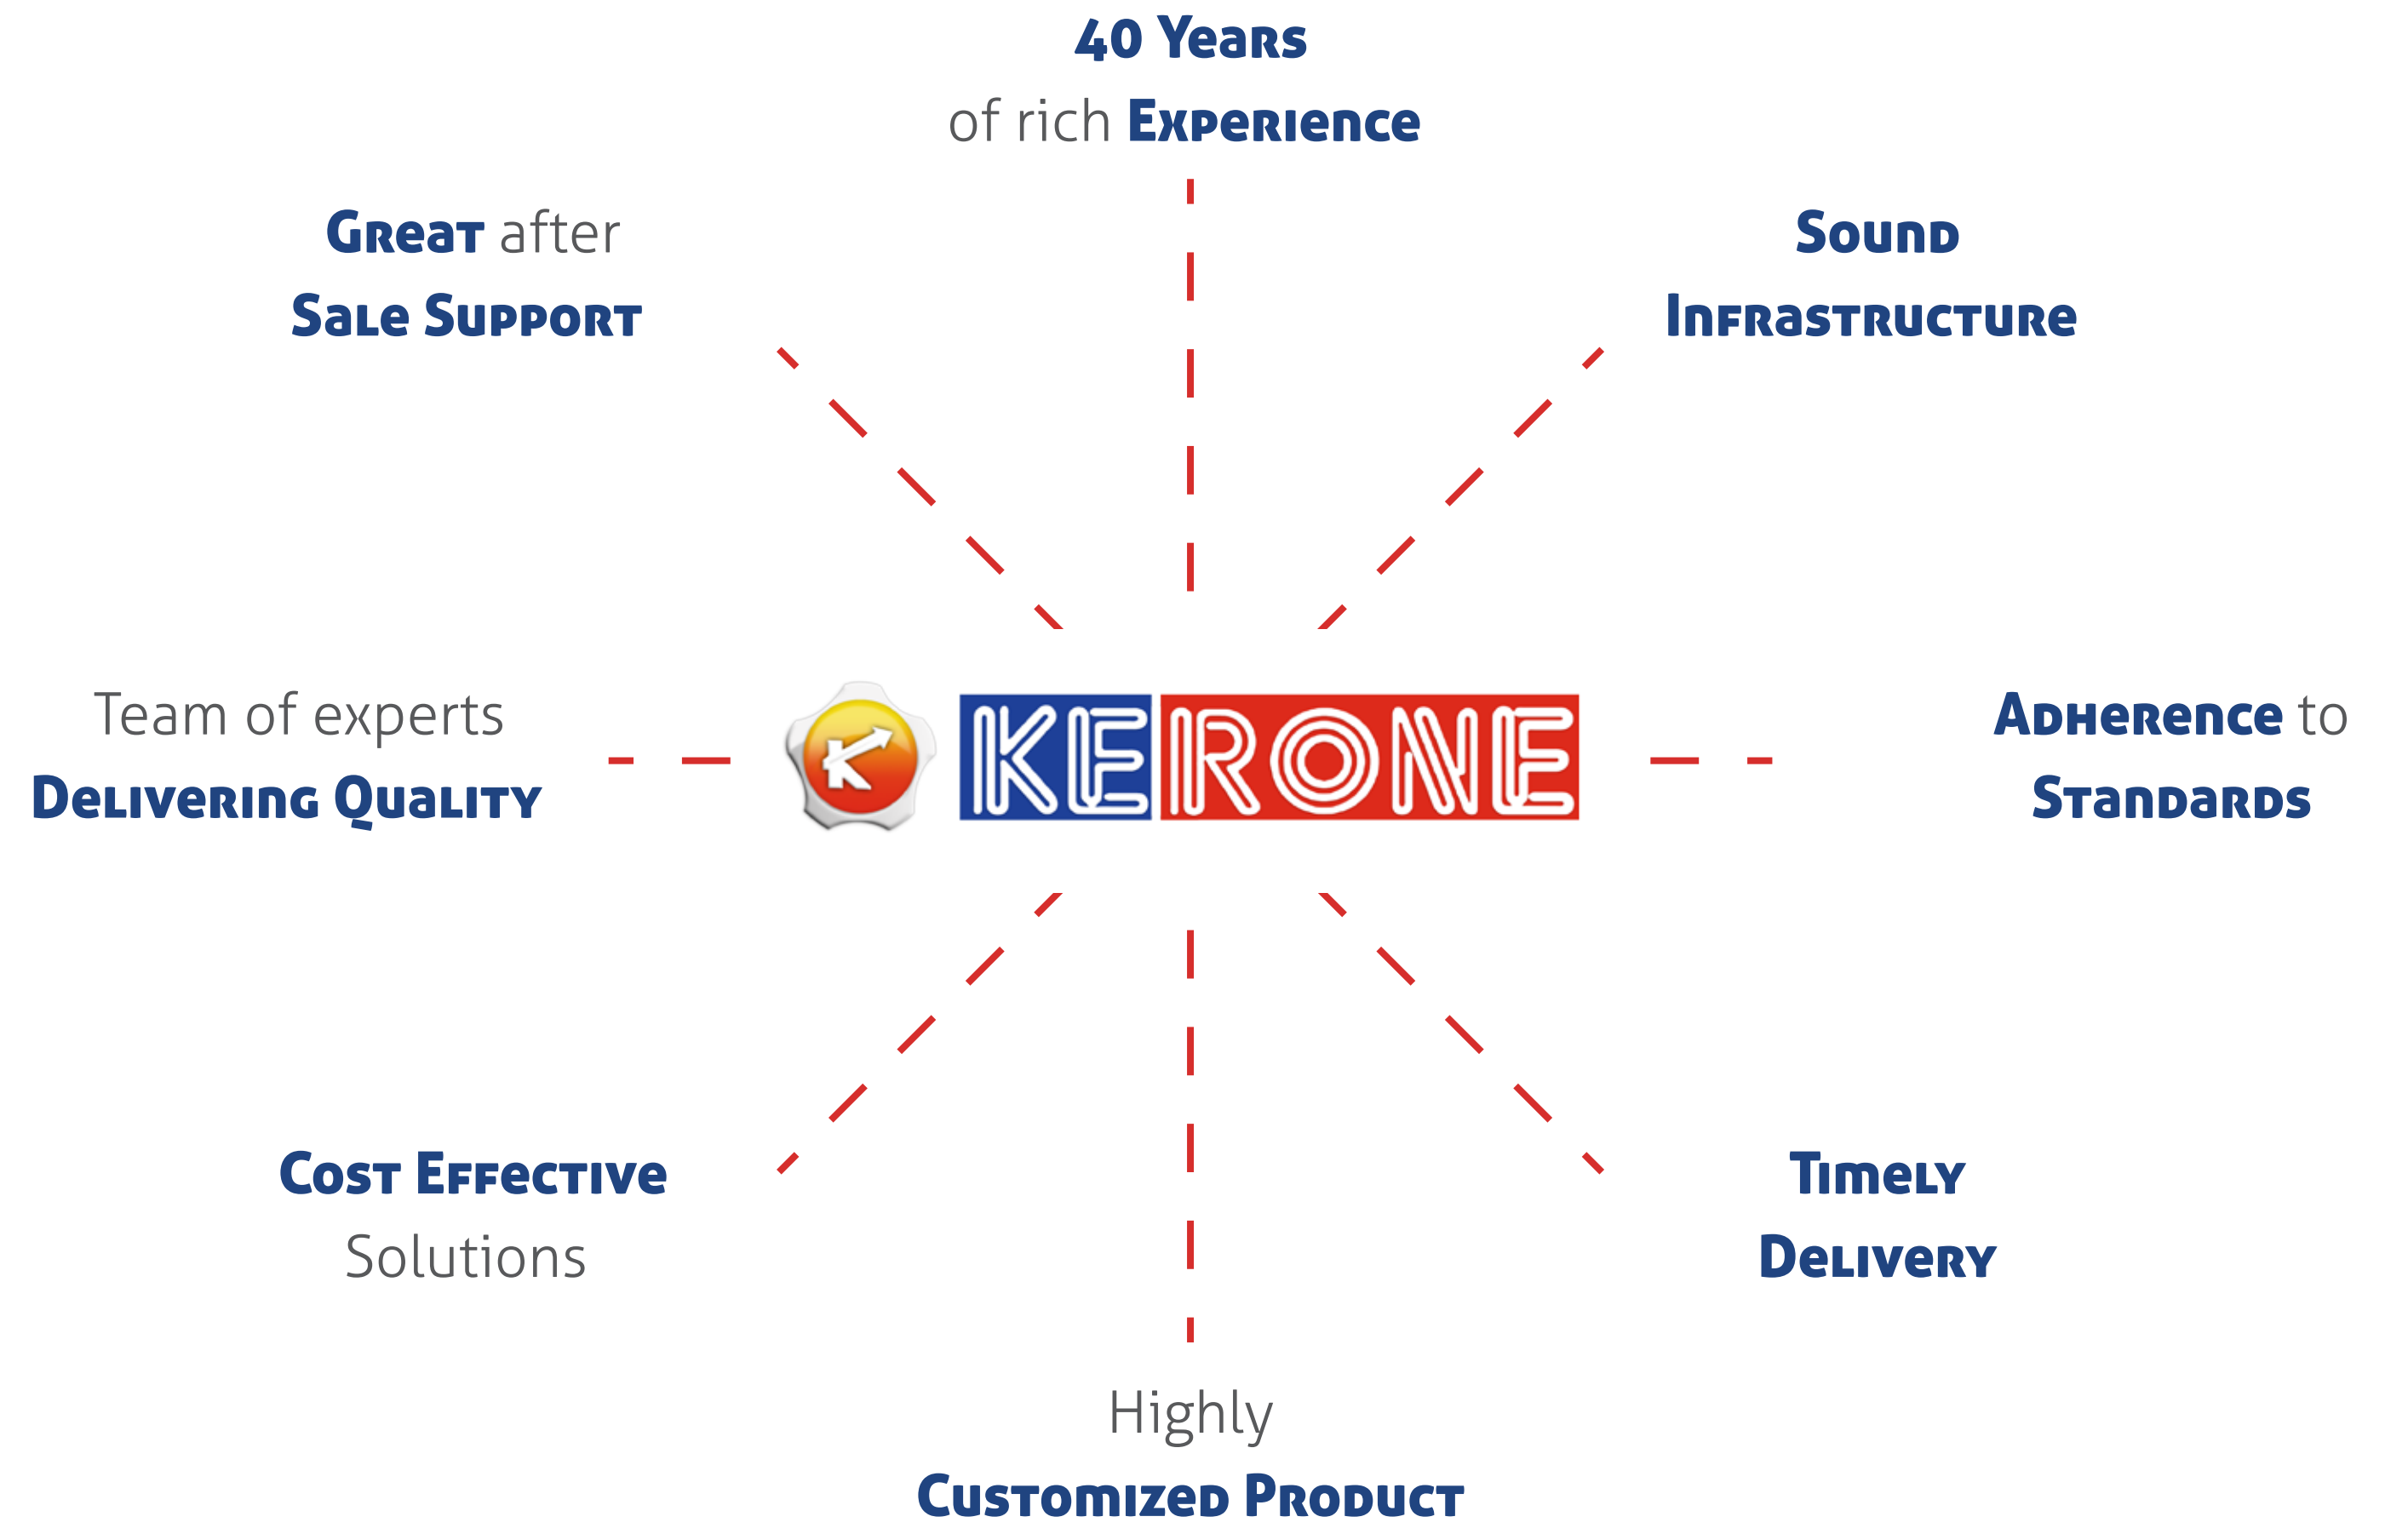

**“Enhance the value of customer operation through our customer need centric engineering solution”**

## *Mission*

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

## *Vision*

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

## Introduction to Ceramic Flat Infrared Heaters

KERONE is highly dedicated towards the research, development and manufacturing of high quality and customized infrared heaters based on the application need of customer business.

We manufacture the ceramic flat infrared heater which comprised of a resistance wire element embedded in the body of ceramic material, this construction increases the reliability of infrared emitter, the flat infrared heaters are widely accepted for the industrial, commercial and domestic applications.

The flat construction provides the flexibility to use the heater with ease for multiple applications. Features and size

These heaters are available in the standard size of 122 mm x 122 mm, 245 mm x 60 mm and 120 mm x 60 mm with Power rating of 250W, 400W, 600W, 800W AND 1000W. Ceramic Flat Infrared Heaters come in with and without thermocouple.

### Application

- Thermoforming and Vacuum Forming.
- Shrink Packaging and Fitting.
- Mould Heating.
- Drying Applications.
- Paint and powder industry.
