# COLOUR CHANGING INFRARED HEATERS

Environment Friendly Engineering Solution Company

In Association with SVCH-Technologii, Moscow (Russia)

ISO 9001-2008 | ISO 9001-2015 | EMS 14001 | OHSAS 18001

# About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries).

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

Enhance the value of customer operation through our customer need centric engineering solution

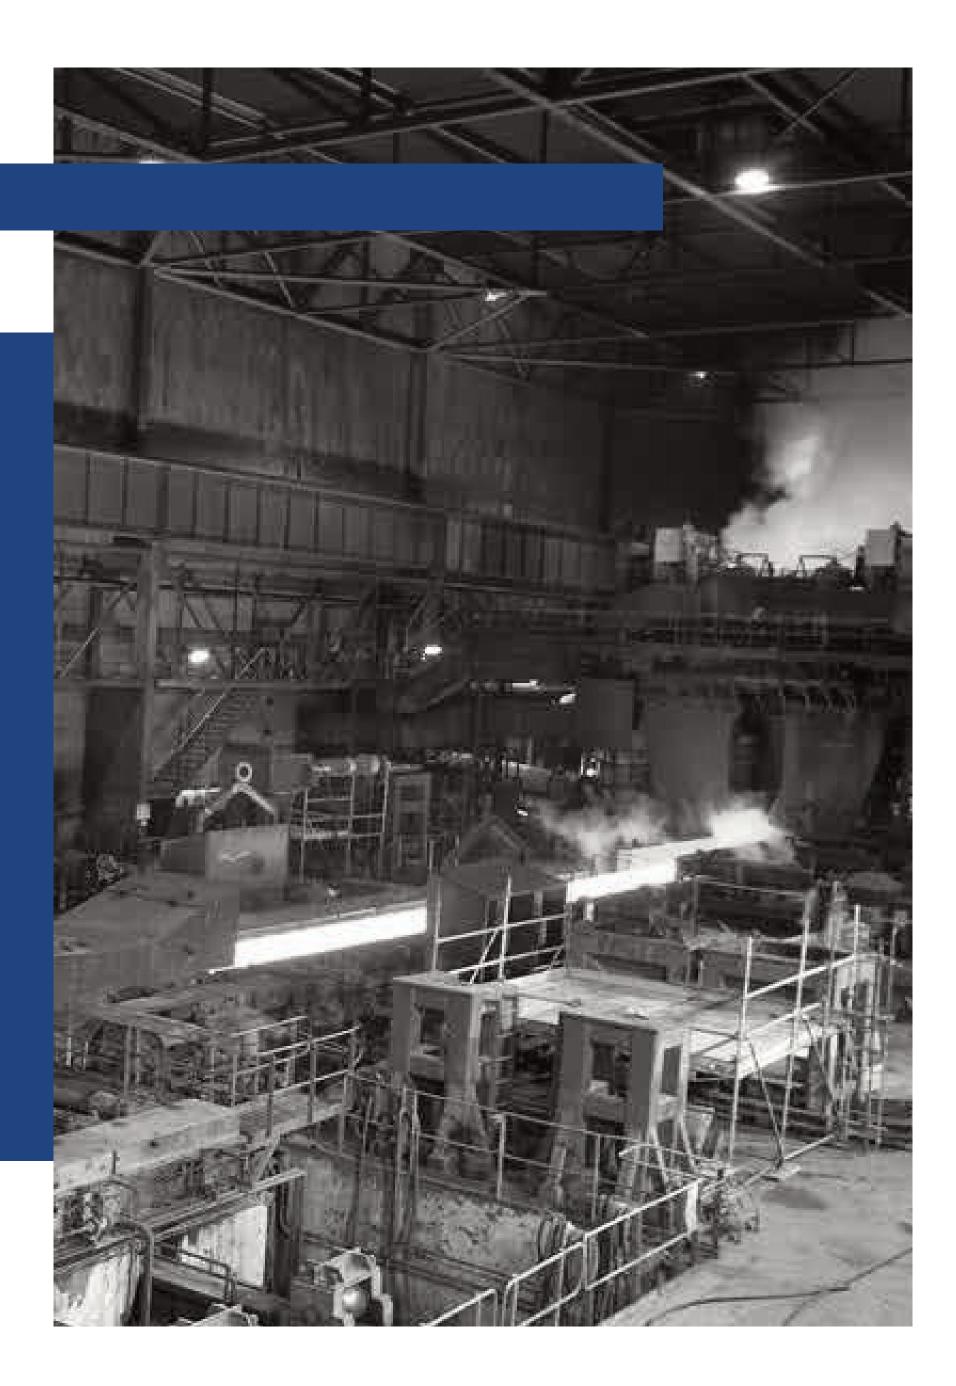

### Mission

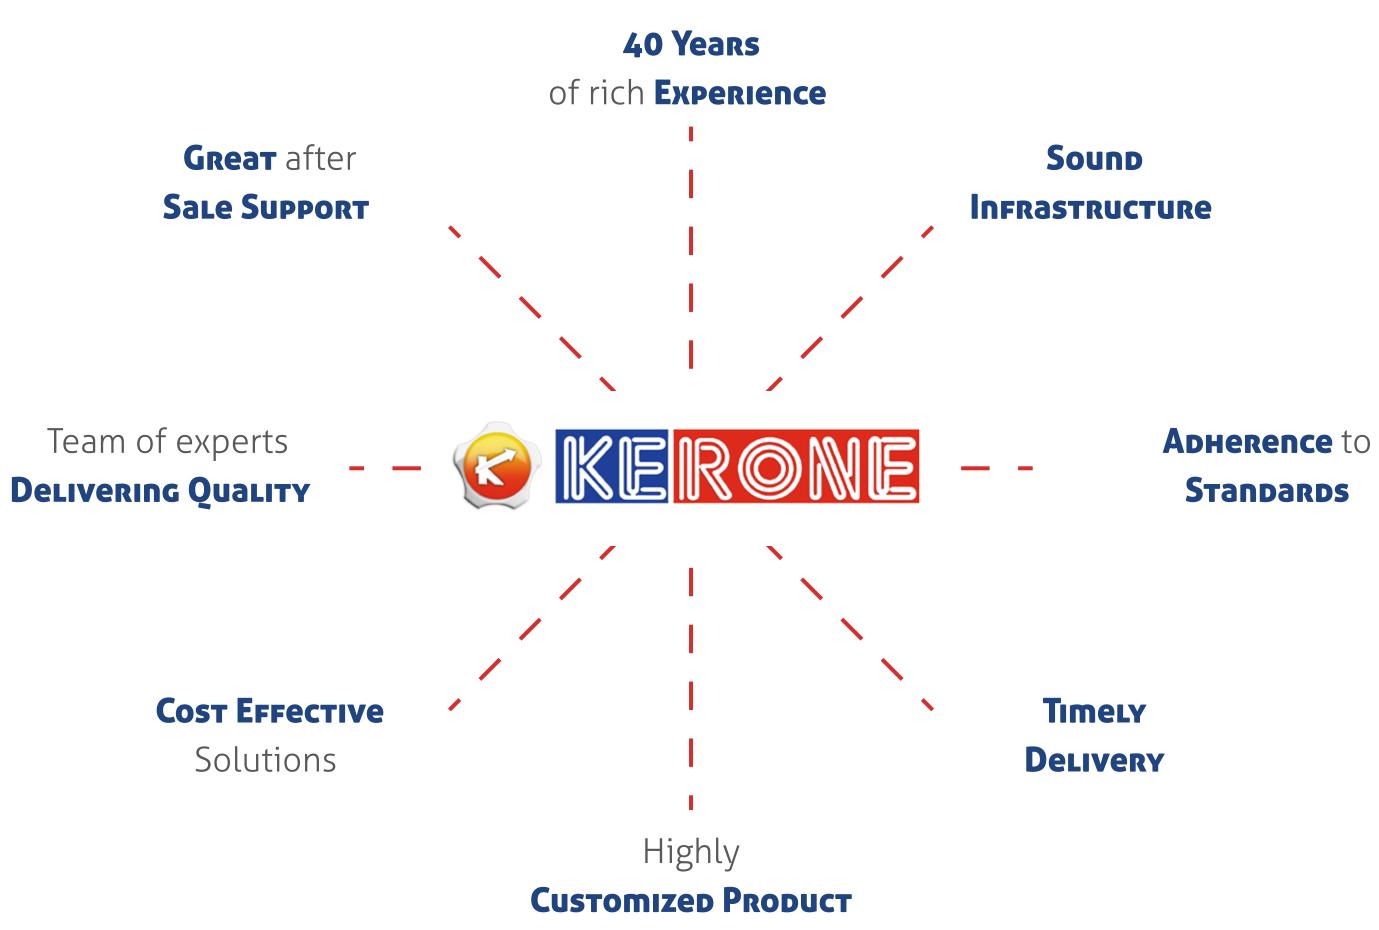

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

### Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

# Introduction to Colour Changing IR Heaters

Colour Changing Infrared Heaters: KERONE is leading name amongst the Infrared heater manufactures based on the specialized heating and drying need of customer, our colour changing infrared heaters are amongst one of our Infrared heater range product which is designed with special infrared emitters those changes its colour with the change in temperature.

The infrared emitter of colour changing infrared heaters take designated colour based on the temperature range, hence it make the identification of temperature change very easy just with the visual approach.

Even from the array of Infrared heaters, faulty one can be identified very easily, hence reduced down time of heater.

#### kerone/color-changing-infrared-heaters

#### Features

- The material used does not oxidise resulting in cleaner surface and no wear out.
- Infrared emitter takes designated colour with change in the level of heat.
- The coil is placed in a ceramic material and can be placed in any position.

#### Application

- Thermoforming and Vacuum Forming.
- Shrink Packaging and Fitting.
- Mould Heating.
- Drying Applications.
- Paint and powder industry.
