# About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

**“Enhance the value of customer operation through our customer need centric engineering solution”**

## *Mission*

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

## *Vision*

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

## Introduction to Conveyorised Gas Infrared Ovens

At KERONE, we design/manufacture a wide variety of continuous process ovens. Designs include flat conveyor belt style, chain conveyors, Ferris wheel, carousel, overhead trolley, serpentine, chain-on-edge, spindle, slat type, strip cure, print plate, pusher ovens, dog beams, wash-draw furnaces, as well as specialized custom conveyor ovens (Horizontal/vertical).

Every oven is designed only after by carefully studying the client's specific process requirement to develop the heating system that will best fit for the application requirement. We also hold our expertise in designing of conveyorised gas infrared (IR) ovens that uses the efficient gas firing system designed cautiously by the KERONE.

The conveyorised gas fired infrared (IR) ovens are manufactured after scrutinizing the speed, heating and cooling zone requirements. Conveyorised gas fired infrared (IR) ovens manufactured are having heating zone control and conveyor speed control mechanism.
