About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

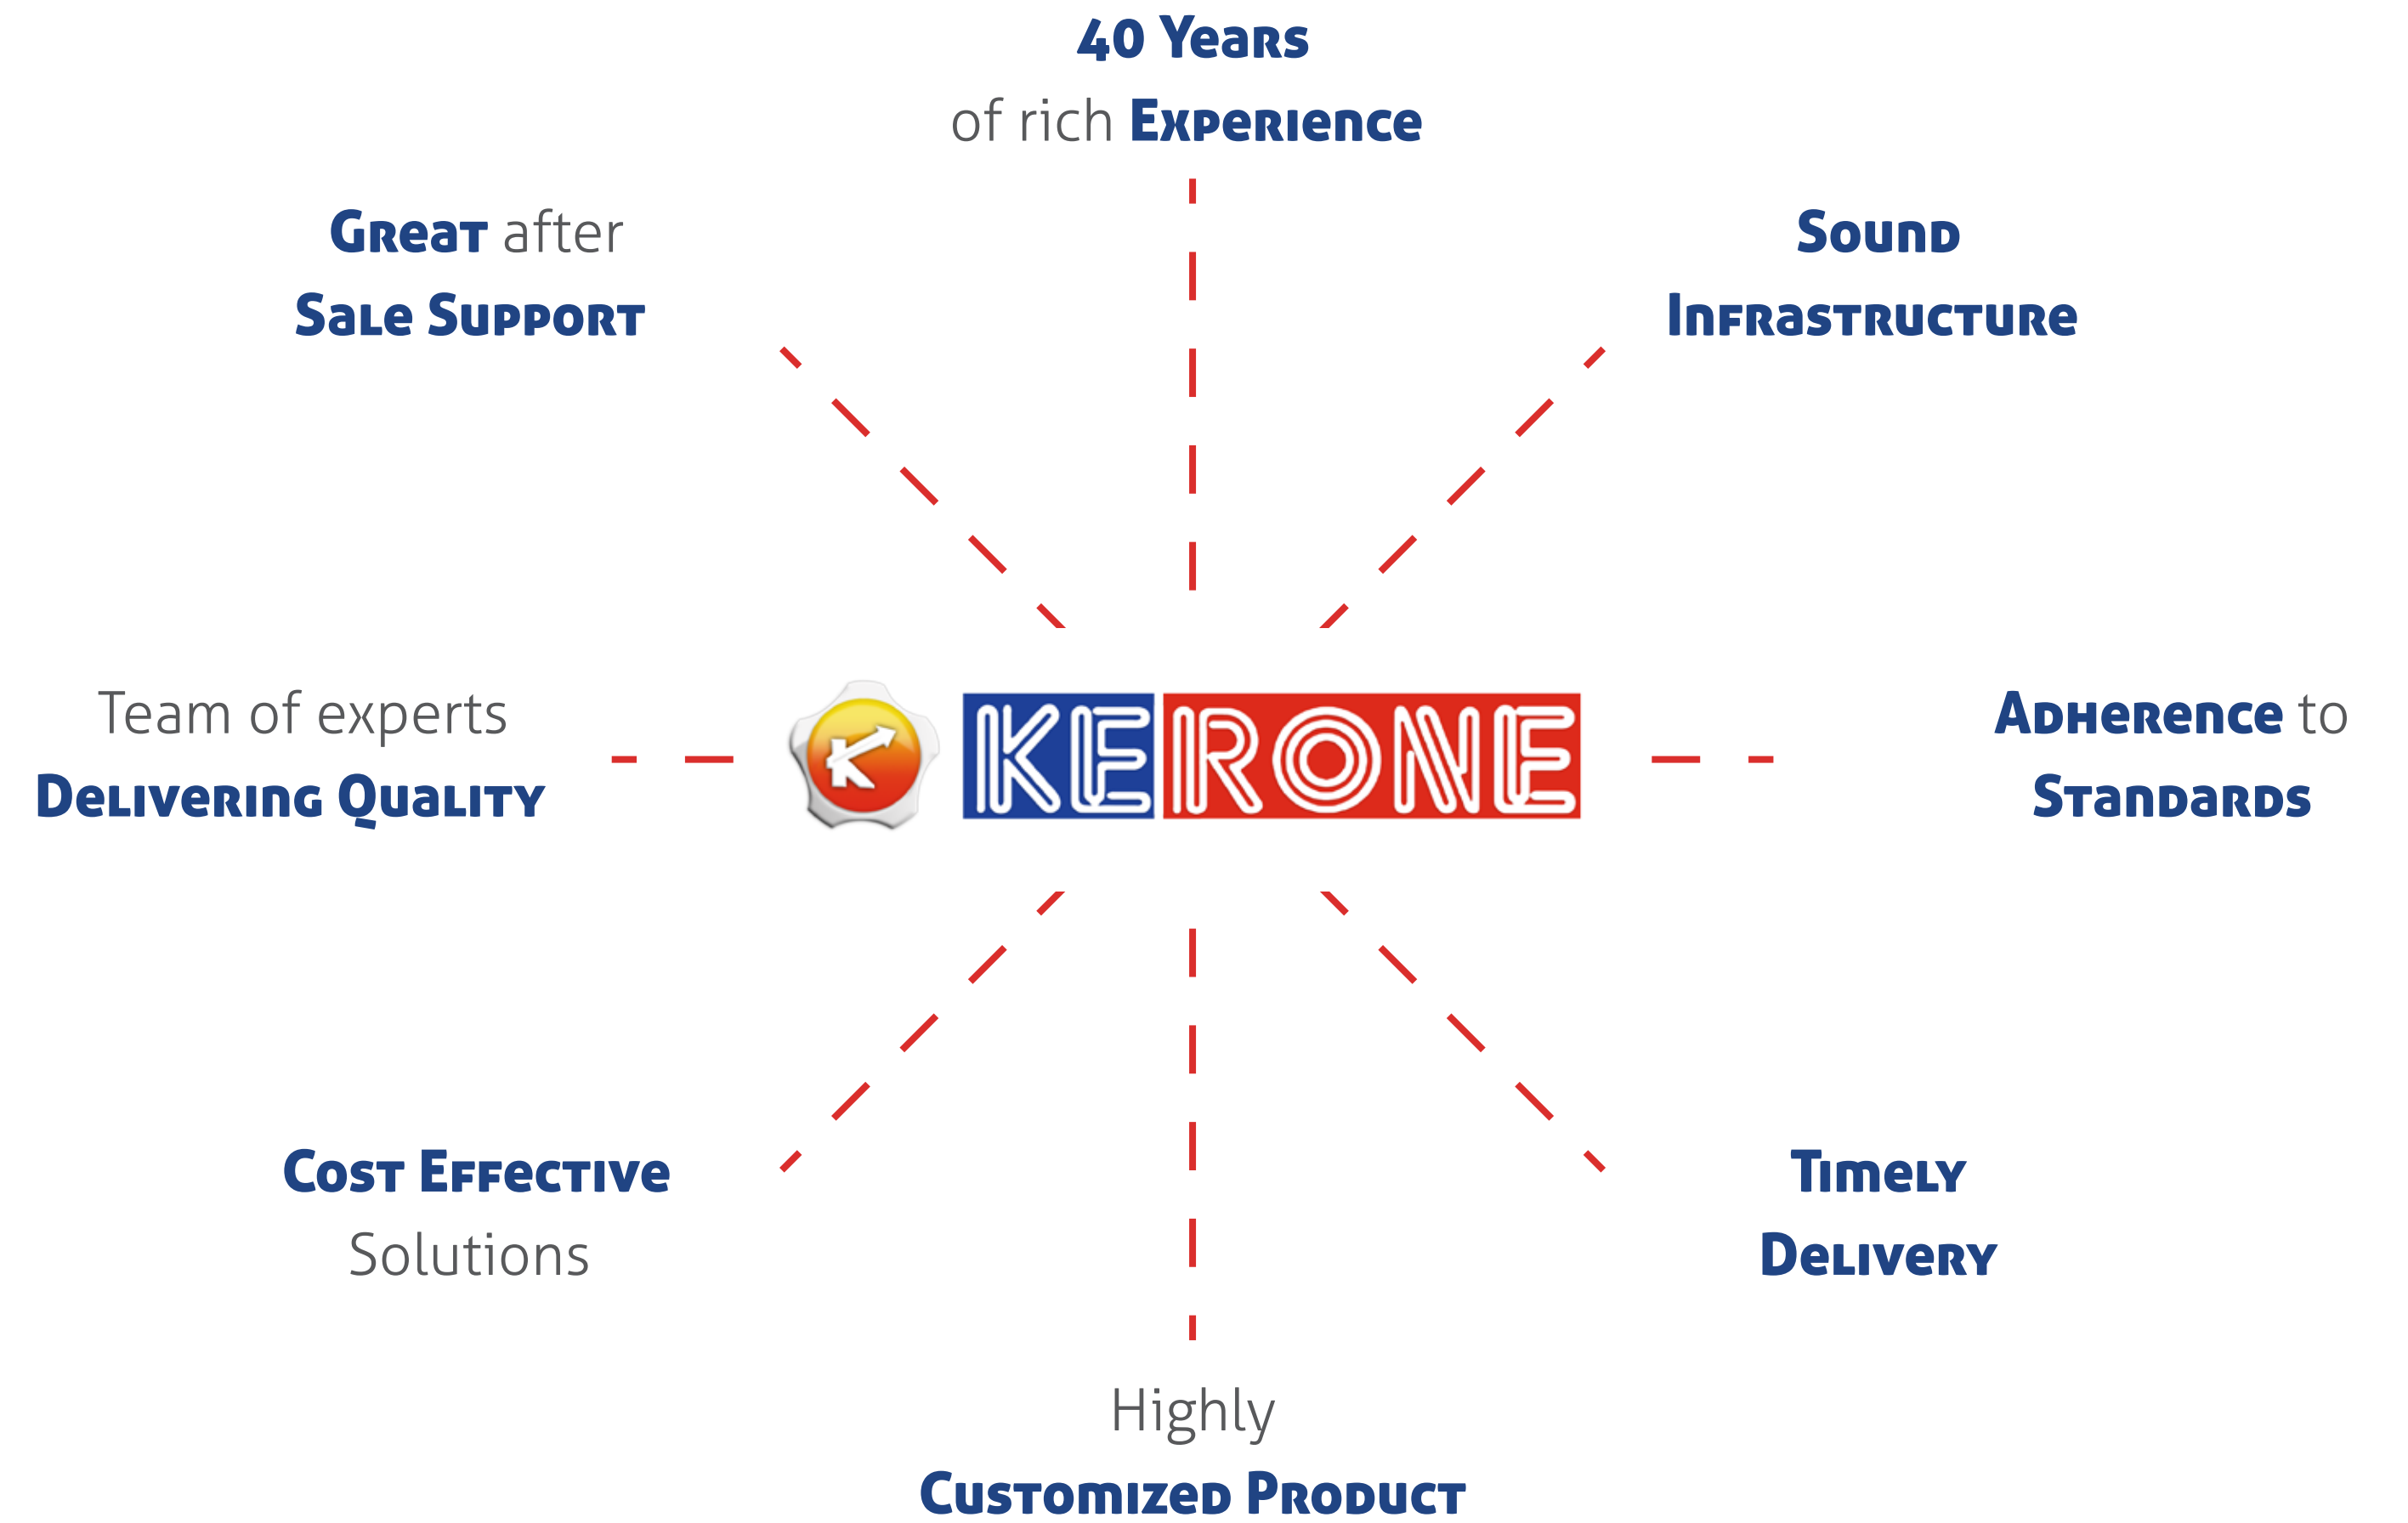

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to Dehydrators

Dehydration is preservation process helped the new age food industries, in the process of dehydration the water contains with the food is reduced to desirable level for application such as instant food, powder form of spices and fruits, noodles, soups, pastas and other food preparations.

In the process of dehydration the moisture within the food is removed from its micro-organism level, hence preventing it from degrading or spoiling over time. The modern dehydrating techniques help to prevent the flavor, color, aroma and vitamin levels.

We provide both batch type as well as continuous dehydrating plants. Our dehydrators are easy to install and technically advanced to set and monitor dehydrating time, moisture level, weight of food under process as different time.

kerone/industrial-dehydrators

www.kerone.com/industrial-dehydrators.php

Features

- Easy to understand digital control panel
- Low energy loss
- Robust in design
- Longer life
- Controllable moisture level

Specifications

- Packaged and Instant Foods
- Pharmaceutical Industries
- Sugar plants
- Food preservation industries
- Chemical Plants
- Paper Industries
