About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to Insulated Ceramic IR Heaters

At KERONE we are known for addressing the need of customer's process, Insulated Ceramic Infrared Heater is a special type of heater with proper insulation on the backside with extremely efficient heat insulation material.

They have a very long life even when used regularly. The special insulation keeps the internal parts safe and higher temperatures can be achieved easily without any risk or trouble.

The insulation minimizes the heat losses and reduces the temperature in the wiring area. Hence, this can be regarded as energy saving product. These heaters are available in various shapes with different power capacity up to 1000w.

www.kerone.com/insulated-ceramic-infrared-heaters.php

Features

- High temperature up to 900 degree centigrade
- Fast heat up time approx. 2 minute.
- Compact Size
- Can be installed easily

Application

- Thermoforming
- PVC paste coatings on fabric
- Powder coating
- Paint Baking
- Tempering glass
- Soldering Printed Circuit Boards
