# About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

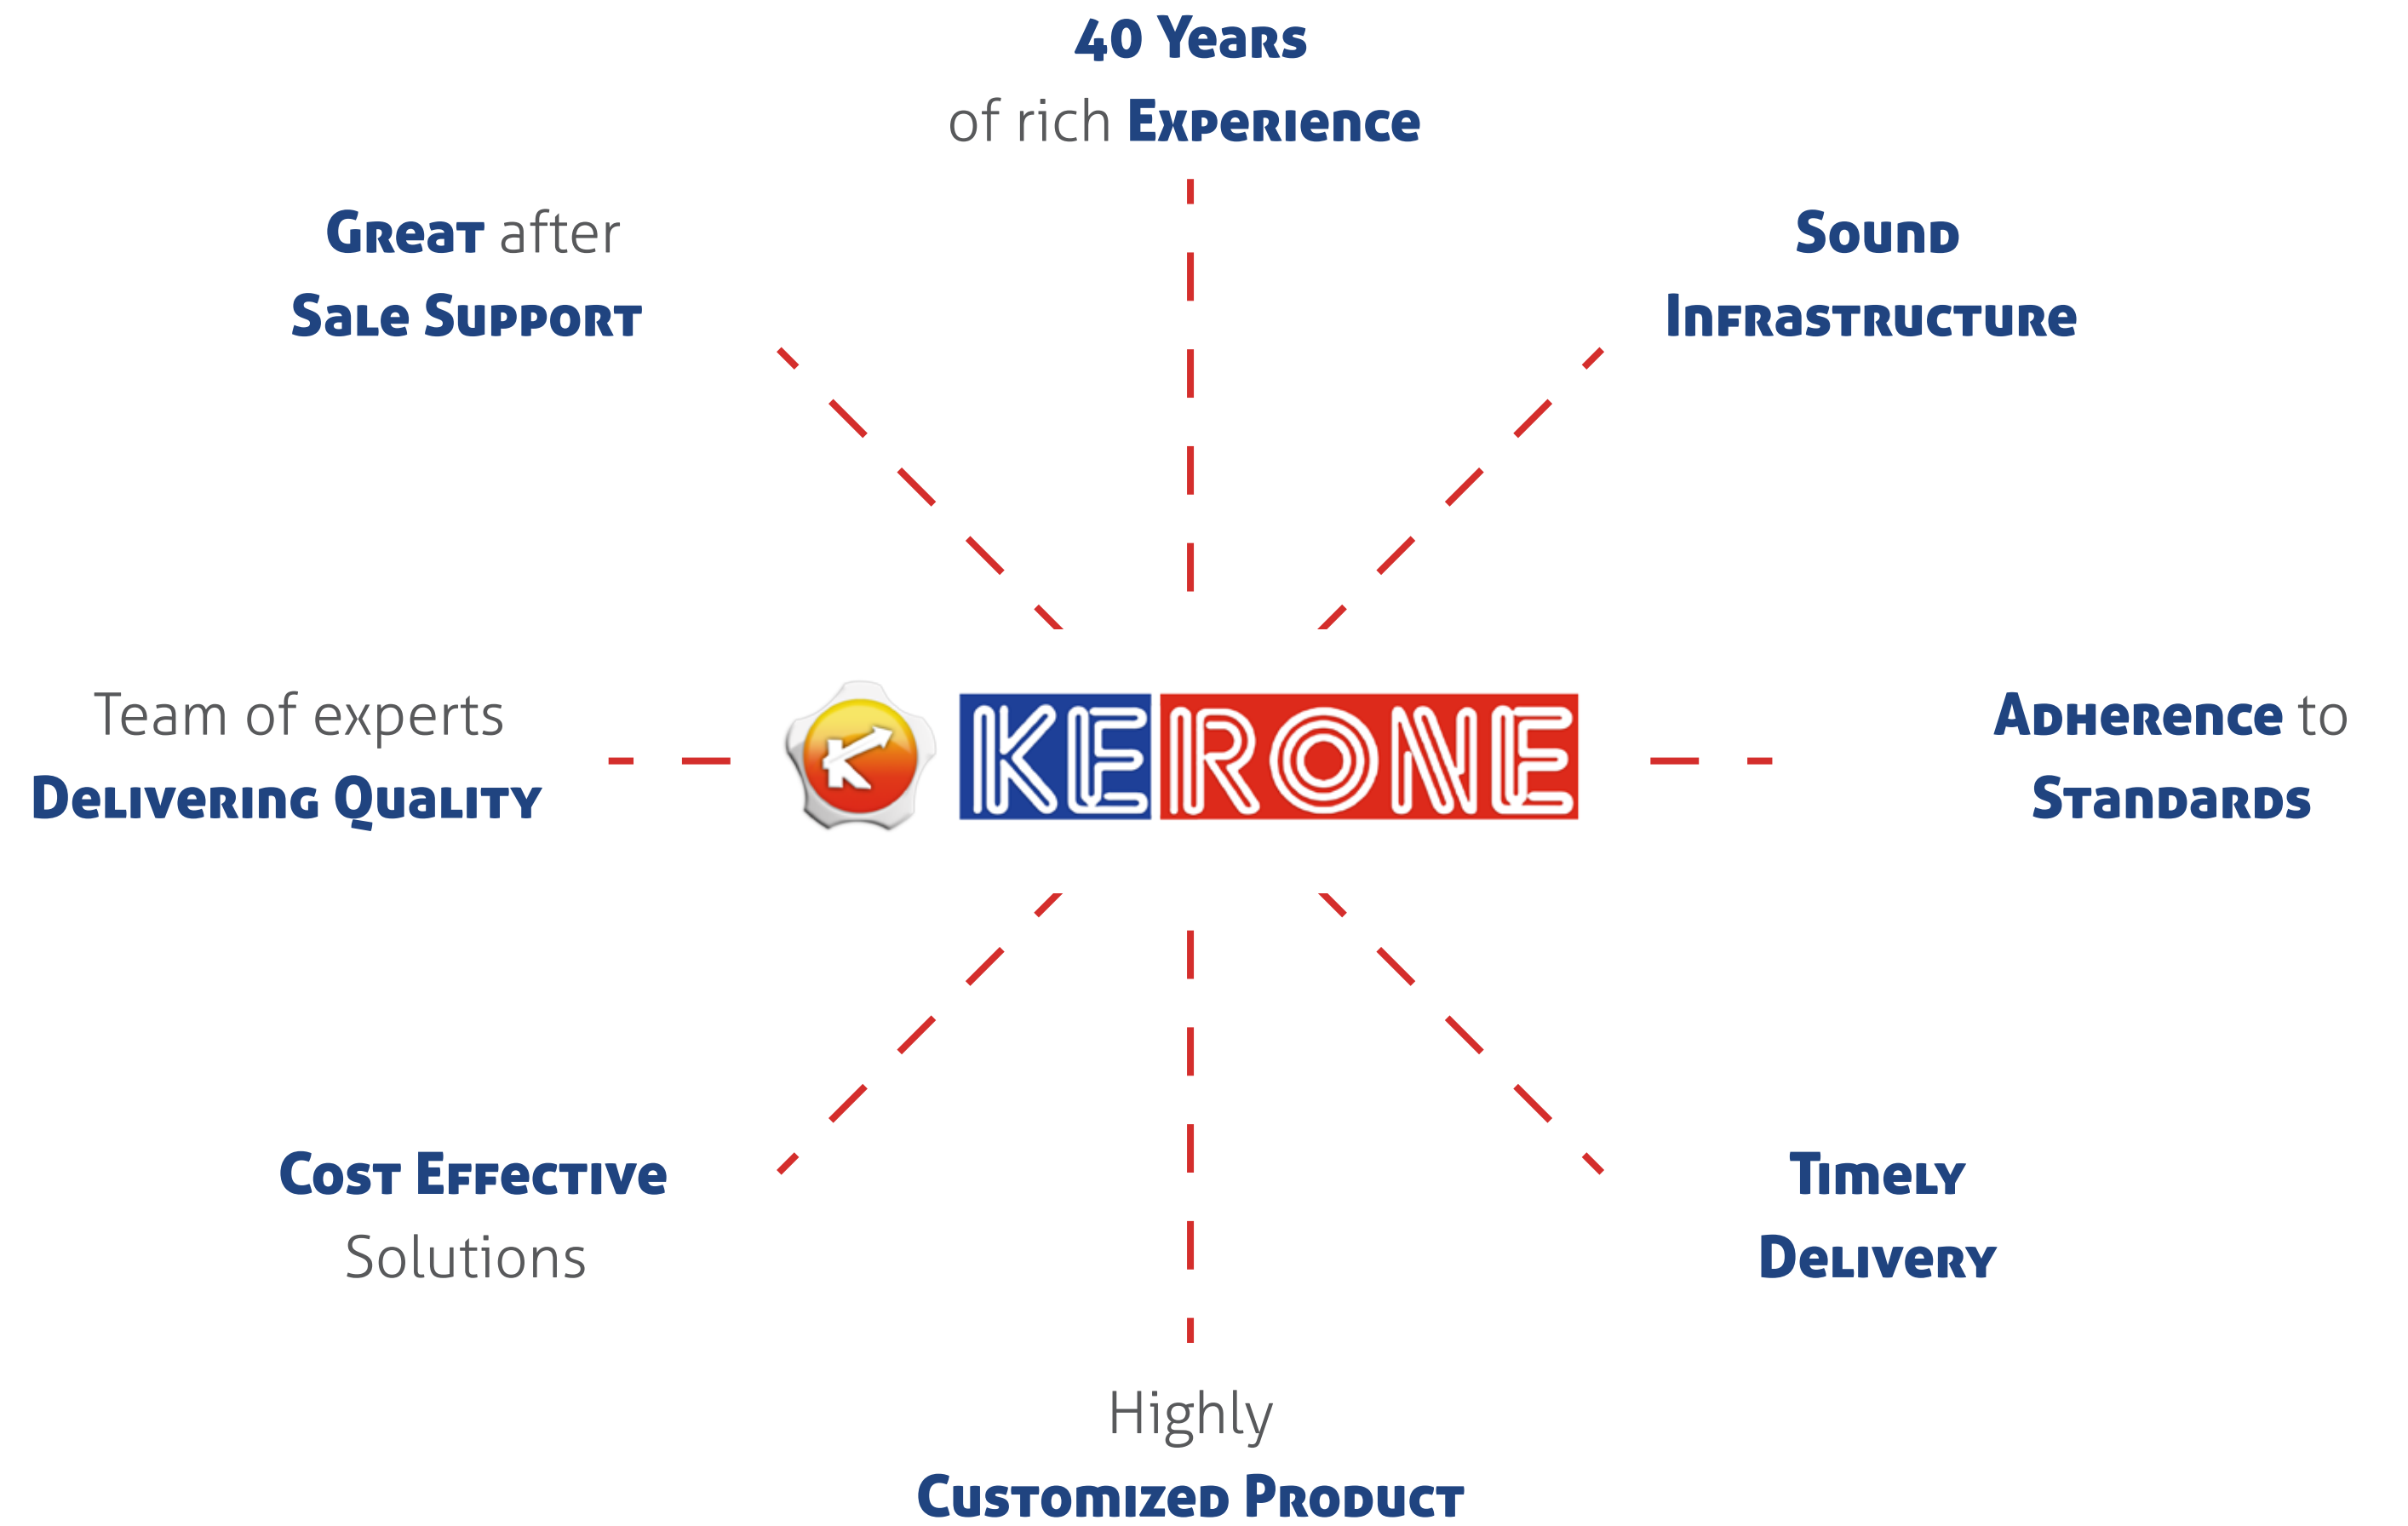

**“Enhance the value of customer operation through our customer need centric engineering solution”**

## *Mission*

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

## *Vision*

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

## Introduction to Infrared (IR) Curing Unit

We at KERONE design manufacture and export across world various Infrared (IR) Curing Unit having customized specification to fit into your drying process requirement, Infrared (IR) Curing Unit are designed with the superior quality Infrared (IR) radiator with digital control electronics.

We provide Infrared (IR) Curing Unit that is designed in compliance with international quality standards.

For safety purpose, our Infrared (IR) Curing Unit and conveyor speed is integrated with each other.

The Teflon coated, antistatic (PTFE) belt of unit protect for rust and ensure longer service life.

### Features

- Conveyor speed & UV system are integrated with each other for safety purpose.
- Conveyor driven by AC motor with variable frequency drive for fine speed setting
- Teflon coated, antistatic (PTFE) Belt
- Imported gear box
- Rubber lining rollers for belt
