About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

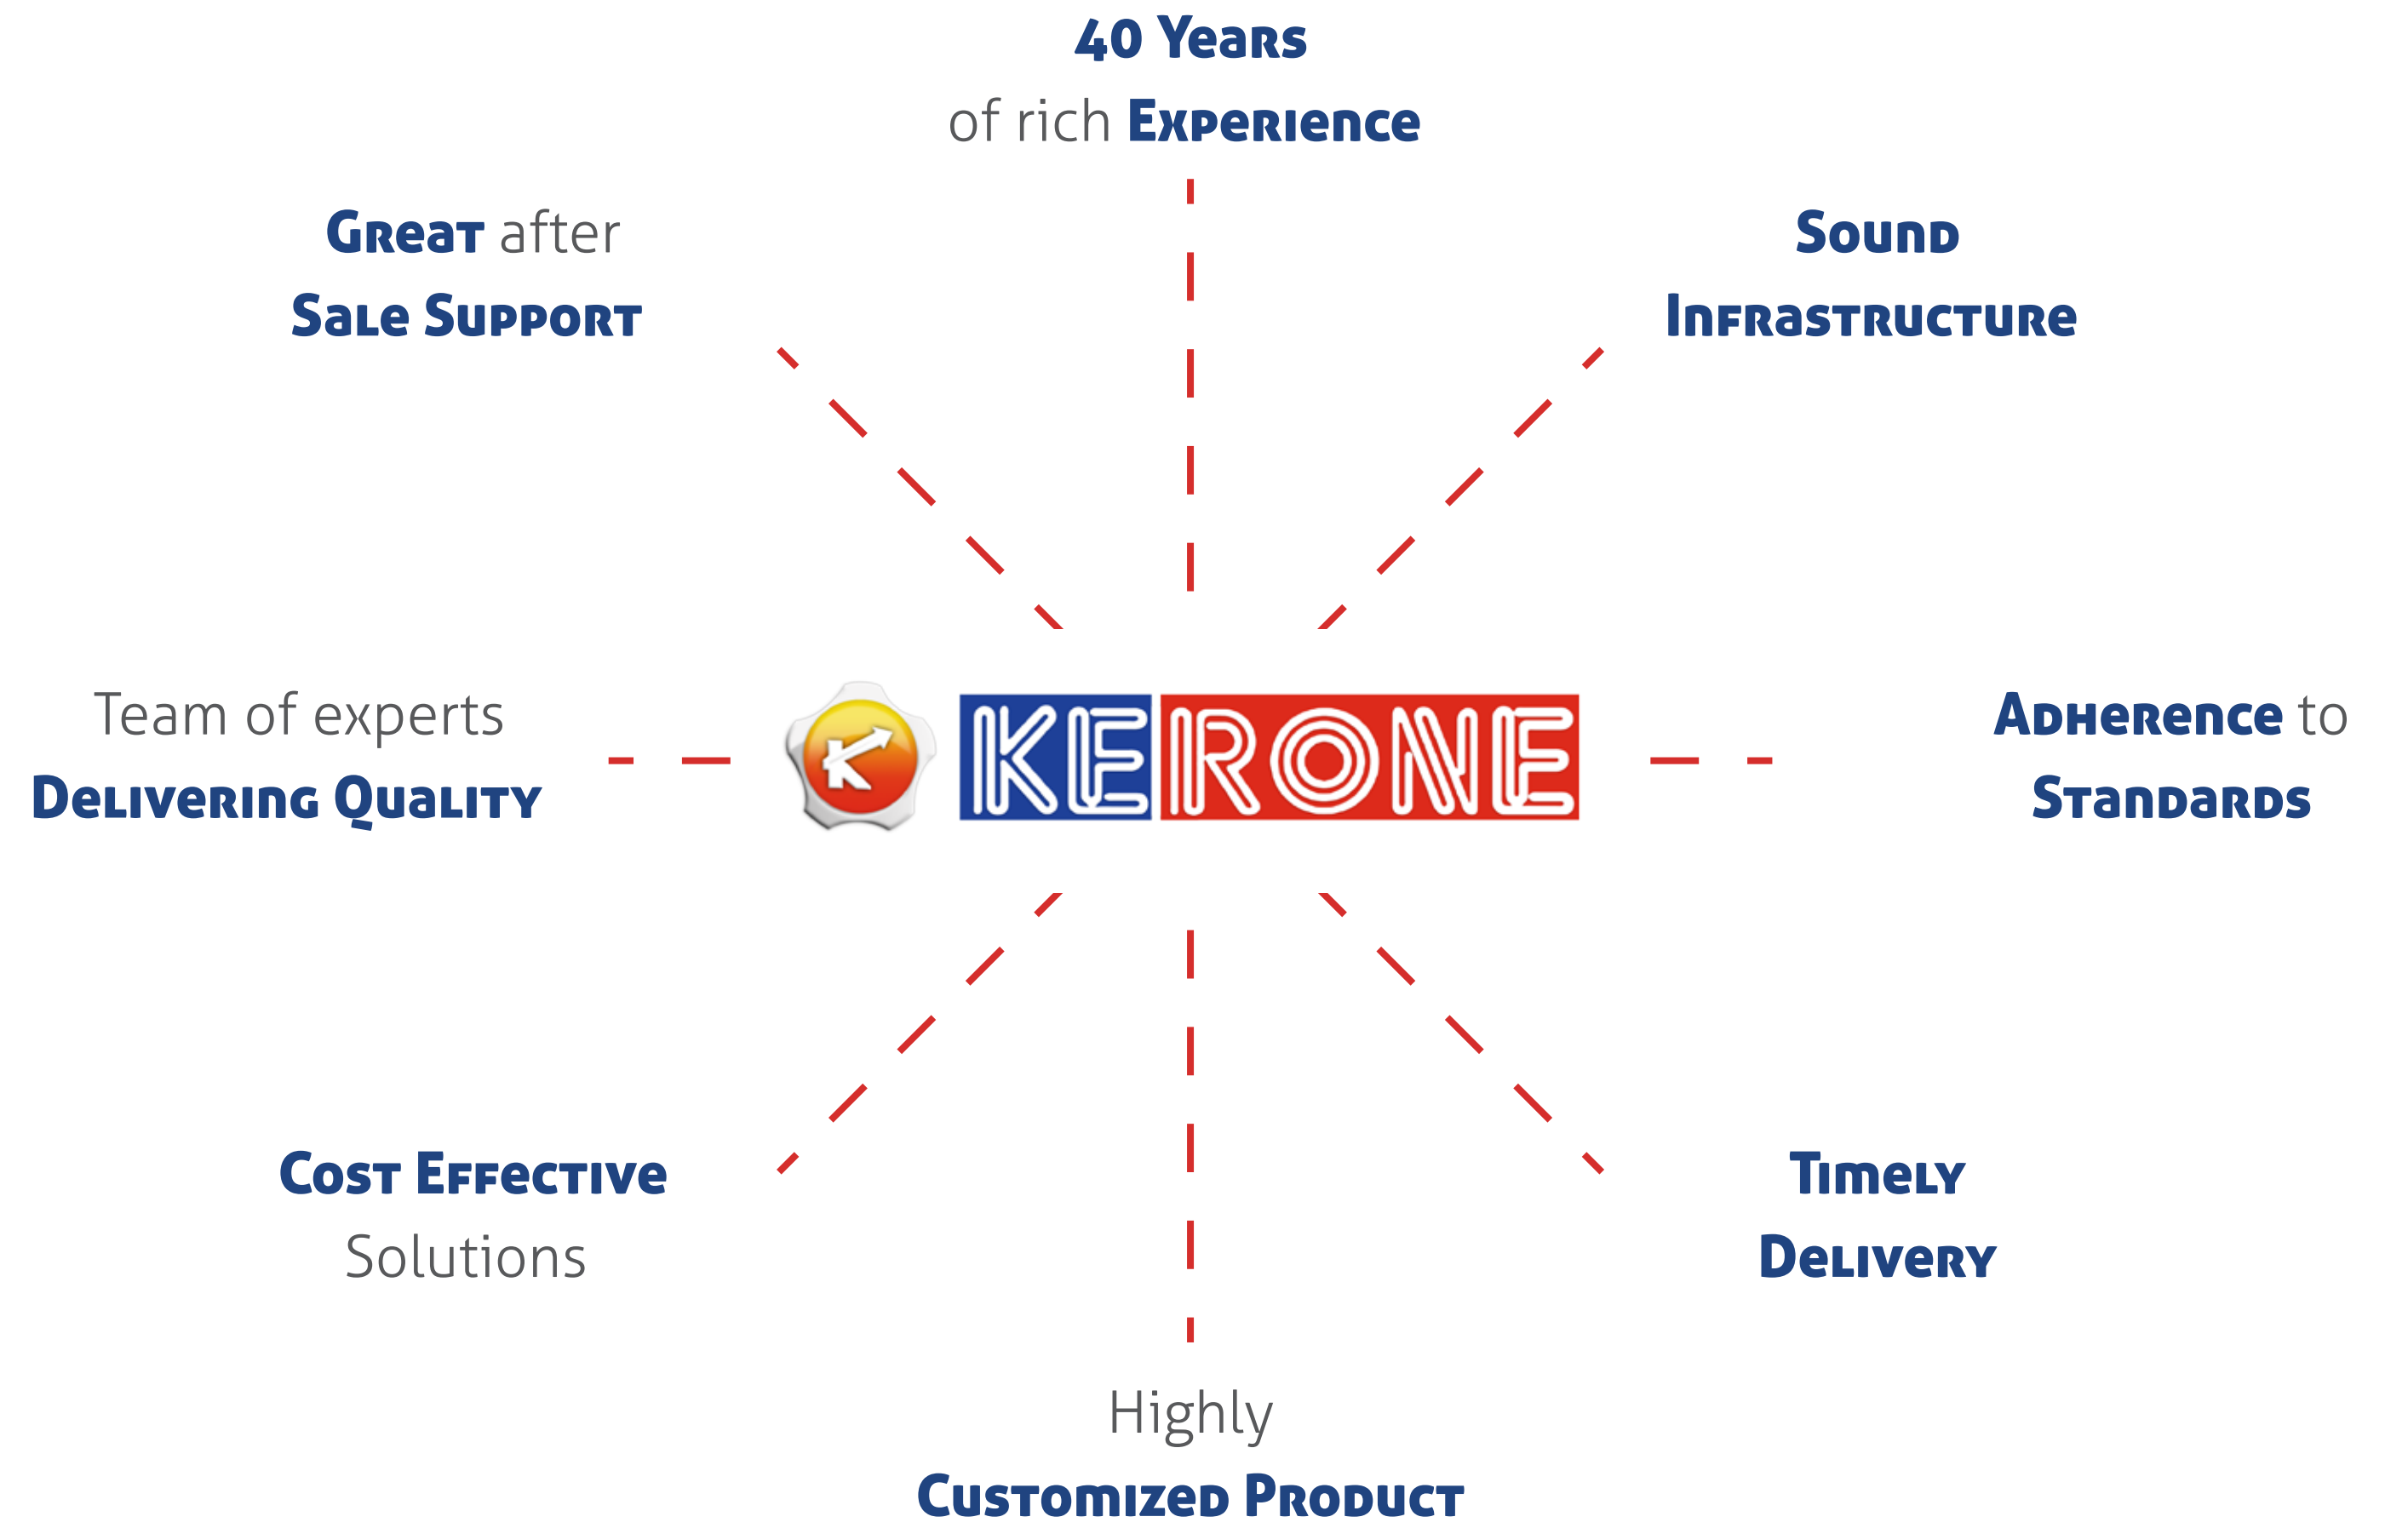

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to Lab and Pilot Scale Coating

KERONE's Lab and Pilot scale coating systems are of plug and play type, sizing 10 inches to more than 50 inches. We produce lab-scale and pilot-scale coating systems to achieve same level of quality and efficiency as of production scale coating system. We design and manufacture lab and pilot scale coating with of various such as Gravure Coating, Knife coating, Curtain Coating, Knife-Over-Roll Coating, Web Coating and Mayer Rod Coating.

Lab scale and Pilot scale coating lines are ideal to get the chemistry of coating rightly in place by trying various coating combination with substrate, suitable for the small scale production, NPD (New product development), science labs. Machines are very elastic and adaptable.

Features

- Big Coating Performance by small size equipment
- Suitable to handle small input and provide better performance
- Technically reliable and efficient
- Flexible, highly efficient coating machine for high quality
- Aesthetically vibrant and Technically advanced
