About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to Printing Drying Oven

KERONE is leading name in designing, manufacturing and exporting various kind of printing drying oven, to best suite the your process requirement.

The tin printing and drying oven are continuous heating and drying oven which comprises of conveyor system that maintains the uniform speed and also designed to maintain the steady temperature through out the oven.

Features

- Compact size (from 130cm length)
- Variable belt speed control
- Height adjustable heating element
- Optional castors for easy movement
- Removable heat chamber
- Expandable at any time
- Wide feed and exit openings
- Single or double heat chamber
